PRSHE Policy

© Copyright Coram Life Education – for use by SCARF subscribing schools only v.2025.a

This policy was written and developed in consultation with parents, teachers and other school staff, governors and the pupils at Kinson Academy. We have listened and responded to all views to help strengthen the policy, ensuring that it meets the needs of all of our pupils.

Legal requirements of schools

It is now a statutory requirement for primary schools to deliver Relationships Education and Health Education, and the Department for Education (DfE) recommends primary schools to deliver Sex Education in years 5 and/or 6, in line with content about conception and birth, which forms part of the national curriculum for science.

Health Education is also statutory in all schools.

Kinson Academy acknowledge that under the Education Act 2002/Academies Act 2010 all schools must provide a balanced and broadly-based curriculum and wish to have a policy that not only covers the statutory content but covers all aspects of our Personal, Social, Health Economic (PSHE) education provision.

What Personal, Social, Health and Economic (PRSHE) education including Relationships Education, is:

Our PRSHE education, including statutory Relationships and Health education, and non-statutory sex education, as recommended by the DfE, provides a framework though which key skills, attributes and knowledge can be developed and applied.

This promotes positive behaviour, good mental health and wellbeing, resilience and achievement, helping children to stay safe online, develop healthy and safe relationships, making sense of media messages, challenging extreme views and having the skills and attributes to negotiate and assert themselves now and in the future.

The school's PRSHE provision supports the school's aims of developing confident citizens and successful learners who are creative, resourceful and able to identify and solve problems. The social and emotional development of pupils is embedded throughout the entire school's curriculum and culture. The school has a powerful combination of a planned thematic PRSHE program, built around a spiral curriculum of recurring themes, designed to:

1. Give pupils the knowledge and develop the self-esteem, confidence and self-awareness to make informed choices and decisions;
2. Encourage and support the development of social skills and social awareness;
3. Enable pupils to make sense of their own personal and social experiences;

© Copyright Coram Life Education – for use by SCARF subscribing schools only v.2025.a

4. Promote responsible attitudes towards the maintenance of good physical and mental health, supported by a safe and healthy lifestyle;
1. Enable effective interpersonal relationships and develop a caring attitude towards others;
2. Encourage a caring attitude towards and responsibility for the environment;
3. Help our pupils understand and manage their feelings, build resilience and be independent, curious problem solvers;
4. Understand how society works and the laws, rights and responsibilities involved.

We know there is a proven link between pupils' health and wellbeing, and their academic progress. Crucial skills and positive attitudes developed through comprehensive Personal, Social, Health and Economic education are critical to ensuring children are effective learners.

How PRSHE education, including Relationships Education, is provided

At Kinson Academy we use SCARF, a comprehensive scheme of work for PRSHE and Wellbeing education. An overview of SCARF can be found in our appendices 1.

It covers all of the DfE's statutory requirements for Relationships Education and Health Education, including non-statutory Sex Education, and the PSHE Association's Programme of Study's recommended learning opportunities, as well as contributing to different subject areas in the National Curriculum.

We follow the six suggested half termly units and adapt the scheme of work where necessary to meet the local circumstances of our school, for example, we may use our local environment as the starting point for aspects of our work. The school Parliament are also consulted as part of our planning, to ensure pupil voice in considered and fed into the planned programme.

Our PRSHE subject lead, Sarah Sargent, works in conjunction with teaching staff in each year group and the phase leads (EYFS, KS1 and KS2) and is responsible for ensuring that all staff are equipped with the knowledge, skills and resources to deliver PSHE education confidently. Teachers can access a range of teaching support resources within SCARF, including guidance documents and teacher training films. Any teacher wanting further support should contact the PSHE subject lead in the first instance to discuss their training needs.

Class teachers follow the suggested six half termly units provided by SCARF for each year. The lesson plans list the specific learning objectives for each lesson and provide support for how to teach the lessons; class teachers and our PSHE lead often discuss this on an informal basis.

We have chosen SCARF as our PRSHE resource because the lessons build upon children's prior learning; we have assessed the content and feel that it is relevant and sensitive to the needs of the children. There is planned progression across the SCARF scheme of work, so that children are increasingly and appropriately

challenged as they move up through the school. Assessment is completed by the class teacher using the SCARF Summative Assessment 'I can…' statements, alongside the lesson plan learning outcomes to demonstrate progression of both skills and knowledge.

What is being taught

In the appendices can be found the SCARF Long-Term term overview for both Key stage 1 and 2 and the Early Years Foundation Stage[1] as well an overview of our Science programmes of study[2]..

The Early Years Foundation Stage - EYFS

In the Early Years Foundation Stage, PRSHE education is about making connections; it's strongly linked to child-led activities, including play. PRSHE is taught through activities that are part of topics, as well as on an individual basis to develop personal skills such as dressing, feeding and toileting. Positive experiences are built through daily opportunities, to share and enjoy a range of different activities. Children are given the opportunity to engage in social activities, as members of a small group or occasionally during whole-school activities.

KS1 and KS2

The SCARF programme divides the year into 6 themed units:

1. Me and My Relationships: includes content on feelings, emotions, conflict resolution and friendships;
2. Valuing Difference: a focus on respectful relationships and British values;
3. Keeping Myself Safe: looking at keeping ourselves healthy and safe
4. Rights and Responsibilities: learning about money, living the wider world and the environment;
5. Being My Best: developing skills in keeping healthy, developing a growth mindset (resilience), goal-setting and achievement;
6. Growing and Changing: finding out about the human body, the changes that take place from birth to old age and being safe.

Children are encouraged to engage in activities that promote an understanding of themselves as growing and changing individuals, and as members of a wider community, based on their own first-hand experiences. These activities also encourage pupils to understand how their choices and behaviours can affect others. They are encouraged to play and learn alongside – then collaboratively with – their peers. They may use their personal and social skills to develop or extend these activities. Children are also given the opportunity to make choices about their health and environment and are encouraged to develop a caring attitude towards others.

Within National Curriculum Science in Y2, the children learn that animals, including humans, have offspring that grow into adults. They should be introduced to the concepts of reproduction and growth, but not how reproduction occurs. In Y5, children are taught about the life cycles of humans and animals, including reproduction. They also learn about the changes that happen in humans from birth to old age. This includes learning what happens in puberty.

It is important that the transition phase before moving to secondary school supports pupils' ongoing emotional and physical development effectively. The DfE recommends that all primary schools should have a sex education programme, tailored to the age and the physical and emotional maturity of the pupils. Within our non-statutory sex education that takes place in Y5 and Y6 children will learn about how a baby is conceived, whether through sexual intercourse or IVF. This information builds on content they have previously learnt in the programme about relationships, puberty changes and reproduction; it lays the foundations for their ongoing Relationships and Sex Education in their secondary phase.

How PRSHE education, including Relationships Education, is taught

PRSHE lessons are taught by their class teacher throughout the whole year in their usual classes, in mixed sex groupings, using a range of interactive teaching methods, e.g. films, songs, online games, and drama techniques.

To ensure that children feel comfortable to learn about a range of topics, we create a safe learning environment using a group agreement at the beginning of lessons or topics. This includes a confidentiality statement understood by adults and children.

The teachers will also use a range of skills, including distancing techniques and the anonymous question box. Teachers will answer children's questions factually and honestly in an age-appropriate way and respond to any disclosures following the schools safeguarding procedures.

Support is provided to children experiencing difficulties on a one-to-one basis.

Accessible Curriculum

It is not our school's policy to withdraw pupils with special educational needs from PRSHE education to catch up on other national curriculum subjects: these aspects of personal and social development are as important to all pupils as their academic achievement, and contribute to it.

Lesson plan content will be adapted and extra support provided where necessary to ensure all pupils are enabled to develop key skills, attributes and knowledge developed through the PRSHE education programme. Work in PRSHE takes into account the targets set for individual children in their Individual Learning Plan.

SCARF lesson plans are flexible and allow for teachers, who are skilled in adapting curriculum content to meet the needs of the children in their class, to adjust their content in order to meet the learning outcomes.

Our school ensures that the Relationships and Sex Education (RSE) elements of the PRSHE education programme are relevant to all pupils. All pupils learn together about all the changes that someone may experience as they go through puberty to help develop empathy and understanding and to reduce incidences of teasing or stigma. This will also ensure any child that identifies as transgender or is gender questioning, will have access to RSE that is relevant to the puberty they are likely to experience.

Our school acknowledges different ethnic, religious and cultural attitudes, as well as recognising that pupils may come from a variety of family situations and home backgrounds. These different families are acknowledged through our teaching and the use of resources that promote diversity and inclusion in Relationships Education.

Research shows that, on average, about 10% of pupils will go on to define themselves as gay, lesbian, or bi-sexual. It is possible that some pupils will also have LGB parents / carers, brothers or sisters, other family members and / or friends. Our PSHE education acknowledges this through scenarios, in a sensitive, honest and balanced consideration of sexuality. This helps create a safe environment for all pupils and staff. The public sector equality duty, created under the Equality Act, requires schools and other public authorities to eliminate discrimination and to advance equality in its everyday business, in the design of its policies and curriculum. Schools have a legal responsibility for eliminating discrimination; to do this, schools are required to raise pupils' awareness of diversity and promote respectful relationships with those who are different from them.

Please request to see the school's policy on anti-bullying, equality, diversity and inclusion for further information.

Withdrawal of students

Parents have the right to request that their child be withdrawn from some or all of the non-statutory Sex Education our school teaches but not Relationships or Health Education.

Parents do not have a right to withdraw their children from those aspects of Sex Education that are taught in the statutory National Curriculum Science and Health Education. Parents are invited to view our resources during the Summer term and discuss any concerns with our staff.

Before granting a request to withdraw a child/ren, parents will be invited to discuss the request with.

Sources of Further Information

This policy has drawn on:

- Relationships Education, Relationships and Sex Education (RSE) and Health Education Guidance, Department for Education (July 2019)
- Creating a PSHE education policy for your school, The PSHE Association (September 2018)

- Sex and Relationships Education (SRE) for the 21st Century, Brook, Sex Education Forum and PSHE Association - Supplementary advice to the Sex and Relationship Education Guidance DfE (0116/2000) (2011)
- DfE 'Relationships Education, Relationships and Sex Education (RSE) and Health Education Guidance' (July 2025)
- PSHE Association 'Writing and updating your school's Relationships and Sex Education (RSE) Policy' (October 2025)
- DfE 'Keeping Children Safe in Education' (September 2025)
- Ofsted Education Inspection Framework (November 2025)

This policy should be read in conjunction with the following:

- Safeguarding / Child Protection policy
- Confidentiality policy
- Anti-bullying policy
- Equality, diversity and inclusion policy
- DfE 'Keeping children safe in education'
